

Resolution

The Faculty Senate recommends the immediate formation of a Joint Committee of the Senate, the Administration and Faculty at large to survey the viewpoint of the Faculty and Administration as to the most desirable educational policy objectives and priorities for the University in the next decade. We suggest that this joint committee consist of

- (a) The Executive Vice President,
- (b) One other administrator to be chosen by the Executive Vice President,
- (c) Two members of the faculty at large, one to be chosen by the Executive Vice President and one to be chosen by the Chairman of the Senate,
- (d) Three members of the Senate to be chosen by the Chairman of the Senate.

We recommend that the Executive Vice President chair this joint committee and that the Deputy Chairman be one of the Senate Members. We further suggest that the survey be completed by March 1974 and that the results be presented at that time to the President and Chairman of the Faculty Senate.
