

Logitech BRIO 4K Webcam

Brio 4K webcam is a remarkable piece of technology that streams crystal-clear video with superb resolution, frame rate, color, and detail.

Step 1

Step 2

Note: Download the Logi Tune software to optimize your webcam, headset, and Logi Dock for video meetings.

- Download for [Windows](#)
- Download for [MacOS](#)

Professional video quality: Look your best every time with max 4K Ultra HD/30fps resolution, RightLight 3 with HDR technology, along with a 5x zoom for fine details.

Noise-cancelling dual mics: Two omni-directional microphones with noise cancellation provide business-class audio performance. Support Microsoft Cortana.

Expansive diagonal field of view: Enjoy great flexibility on dFOV. Choose 90° diagonal to show more of the room, or narrow scope to 65° or 78° diagonal for more focused communication.
