## **Nam Phuong Thai**

---

“The bravest thing I’ve ever done is jump off of a 45ft cliff into the ocean, with neither knowledge to swim nor a life vest. I ended up with a broken heel bone and a pair of crutches.”

*Grover Recipient*

## **Gerald ( *Jerry* ) Howard III**

---

“My name is Jerry Howard and I’m originally from Austin, Texas. Something interesting about me is that I actually came to the University of Houston as a business student. Although I will still be completing my business degree, jointly pursuing a degree in mathematics has been my greatest challenge and by far the most enriching piece of my college experience.”

*Math Undergraduate Recipient*

**Audrey Tedore**

---

“Something special about me is that I really appreciate the motto “In Time” on the UH class ring because it makes me reflect on all my experiences leading up to this point. On a more lighthearted note, I’ve always wanted to learn how to do a backflip.”
