

UNIVERSITY of HOUSTON

VETERAN SERVICES

Veteran Services is requesting funding for summer student workers to ensure continuous support for nearly 3,000 military-affiliated students at the University of Houston. Summer is a critical period for onboarding new and transfer student veterans, dependents, and active-duty students. Student workers provide essential assistance with orientation coverage, benefits navigation, case management support, and programming, helping the office maintain timely and effective service despite lean staffing. Funding will allow us to sustain high-quality support, meet student needs during peak enrollment activities, and advance student veteran success initiatives without interruption.
